DETAILED ACTION

1. Claims 1-12 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The cited art taken either singly or in combination with other prior arts fails to anticipate or fairly suggest the limitations which the Applicant claims in independent claims 1 and 7 in a manner which would warrant a rejection under 35 U.S.C. § 102 or 35 U.S.C. § 103, especially when these limitations are considered within the specific combination claimed.

The cited art, U.S. Pat. No. 6,413,353 to Pompeo et al., teaches a similar thermal interface for conducting heat as claimed but it fails to anticipate or fairly suggest at least, among other, *the visible light curable viscous layer of elastomeric material, which includes, by weight, an elastomeric base matrix between approximately 35 and 75 percent, a catalyst between about 0.5 to 15 percent, and a hydrocarbon solvent between about 10 to 30 percent*, as recited in claims 1 and 7.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2829
